PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in full-stack software development using Python, PHP, Laravel, Flask, JavaScript, SQL, HTML and CSS. Experienced in developing, testing, debugging and maintaining web-based software applications, working with databases and REST APIs, and following software development lifecycle practices. Strong problem-solving, troubleshooting and analytical skills with internship experience collaborating on real-world software projects. Seeking a Custom Software Engineer opportunity at Accenture to contribute to scalable software solutions while developing expertise in industrial data and Aveva OSIsoft PI technologies.

TECHNICAL SKILLS

Programming: Python, Java, PHP, C, C++, JavaScript, SQL
Web Technologies: HTML5, CSS3, Bootstrap, Laravel, Flask, REST APIs
Database: MySQL, SQL, Database Design, CRUD Operations
Software Engineering: SDLC, Agile Methodologies, Debugging, Testing, Troubleshooting, Problem Solving, Code Maintenance
Tools: Git, GitHub, VS Code, Selenium, AWS Basics
Business Tools: Microsoft Excel, Word, PowerPoint, Google Workspace

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern **2025 – 2026**
One Planet Technologies LLP

- Developed and enhanced web application components using PHP, Python, Laravel, Flask, JavaScript, HTML and CSS.
- Designed and integrated MySQL database operations including data creation, retrieval, updating and deletion.
- Developed REST APIs and supported backend functionality for application modules.
- Performed debugging, testing and troubleshooting to identify and resolve application issues.
- Used Selenium for functional testing and validation of web application components.
- Collaborated with team members to understand requirements and contribute to software development and maintenance activities.
- Used Git and GitHub for source-code management and collaborative development.

Web Development Intern **2023**
CodSoft

- Developed responsive web components using HTML, CSS and JavaScript.
- Implemented application functionality, performed testing and resolved development issues.
- Worked on assigned development tasks while following structured software development practices.

PROJECTS

MediConnect IoT Hospital Management System *Python, IoT, MySQL*

- Developed a hospital management application for managing healthcare-related data and operational workflows.
- Implemented backend functionality, database operations and application logic using Python and MySQL.

Corporate Internal Management System (CIMS) *Laravel, PHP, MySQL*

- Developed modules for internal business operations using Laravel, PHP and MySQL.
- Implemented CRUD functionality, database integration, authentication and business logic.

Restaurant Management System *Laravel, PHP, JavaScript, MySQL*

- Built a management application covering menu, ordering and operational workflows.
- Integrated frontend components with backend services and database functionality.

TravelAI – AI-Powered Travel Booking and Management Platform *Python, Flask, HTML, CSS, JavaScript, MySQL*

- Developed an AI-powered platform for trip planning, destination exploration and travel bookings.
- Built backend services, authentication and database integration for travel management.

EDUCATION

B.Tech – Computer Science and Engineering **2022 – 2026**
Srinivas University Institute of Engineering and Technology, Mukka

Pre-University Course – PCMB **2020 – 2022**
Dandathirtha Pre-University College

CERTIFICATIONS

AWS Academy Cloud Foundations
Google Data Analytics
Negotiation Skills – Infosys Springboard
Deloitte Certification
Siemens Certification
